

3-Tier A-Frame Keyboard Stand

KS7903 | 11495

Features and Benefits

This versatile A-frame keyboard stand lets you adjust the height and angle of your keyboards until they are just right for playing, whether you are standing or sitting. This lightweight, easy to carry, 54" wide stand is an outstanding value for anyone with a multi-keyboard setup. Support bars slide from side-to-side on the pole, allowing a max 76-key keyboard. Also featured is 2 fixed positions for each support bar, allowing 2 sliding front and rear positions, as well as angle adjustments
